The screenshot shows the ToppingTheWeb LLC website. At the top, there's a navigation bar with links like 'Home', 'ICANN', 'My Account', 'About Us', 'FAQ', '24/7 Sales & Support (480) 824-2500', and a search bar. Below the navigation, there's a 'Website Builder' section with a sub-headline 'Get online. Grow your business. Never miss a customer.' and images of a laptop and tablet displaying website designs. Below this, there's a 'Say hello to your customers with a beautiful website.' section with four columns: 'It's fast', 'It's easy', 'NEW! It's mobile', and 'It's complete'. At the bottom, there's a pricing table with three plans: Economy (From \$5.06/month), Deluxe (From \$11.65/month), and Premium (From \$16.65/month). Each plan has a brief description of its features.

Building Your Own Website?

Why Not!

Many small businesses and non-profit organizations want to Build their Own Website to save money and control the website's design and updates.

Web development tools have become better, easier to use and more powerful, with improved capabilities to address SEO (Search Engine Optimization) practices.

Why Haven't You Built That Site?

Do These Statements Sound Familiar?

- "I Haven't Found the Time"
- "I Have to Read Up on Developing a Website"
- "Yes it is Suppose to be Easy BUT I'm Fearful of Jumping In and Getting Started"
- "My Marketing Budget Can't Support the Hosting and Domain Registration Annual Fees"
- "Who Do I Talk with When I have Problems"

You are not alone. Unfortunately, many people who want to build their own website procrastinate, and then after one or more years, they still do not have a website.

Do It Yourself Workshop

Why a Workshop?

It provides a jumpstart to building your website. It provides a user friendly environment, with a dedicated block of time, hands-on training and one-on-one support.

You'll learn how to use the Website Builder Wizard to create your own website. If you use a Microsoft Product such as WORD®, you will have no problem using the Wizard. It utilizes a simple friendly user interface; just Select, Click, Drag and Drop. No programming is required.

Template Screen Shot

Website Builder comes with over 300 themed templates and thousands of images. If you prefer, you can use your own images. In addition, there are pre-built content websites for your industry.

Easily convert your completed website into a format compatible for mobile phones.

Stop procrastinating:

- Get Your Website Created and Published
- Get Personal Hands On Training and Support
- Get Helpful Tips for Design, Content and Site Structure
- Focus Attention on Development Without Interruptions
- Save Time and Money

Who Should Attend?

Small Business and Non-profit Organization personnel who want to launch an effective and inexpensive website without technical skills or the need to know how to program.
